## Materials

### Water resistant Plywood made/ Contraplacado Marítimo

As séries no catálogo com estes símbolos são produzidas em contraplacado marítimo.

O contraplacado marítimo é um derivado de madeira obtido por colagem de camadas adjacentes com fios cruzados, em ângulos rectos, com faces em madeira desenrolada. Qualidade superior para ambientes húmidos, conferida intrinsecamente pela essência da madeira utilizada.

### Superpan

Séries fabricadas em Superpan de 16mm com acabamento em laminado ou lacado. O Superpan é um painel constituído por aglomerado de partículas de madeira aglutinadas com resinas (UF), sendo as face em MDF conferindo ao painel uma melhor performance mecânica e excelente qualidade da superfície. Presentemente este é o material mais utilizado pela generalidade dos fabricantes de mobiliário de casa de banho.

### Lavatórios Cerâmicos
